Prescott, AZ 86301

RE: SR 89A & Robert Road – Traffic Interchange

The Town of Prescott Valley congratulates the efforts of CYMPO for its vision to champion the continued build-out of State Route 89A and, most recently, the completion of the Fain Road widening to separate traffic for best condition for safety and mobility.

The Town looks forward to ADOT's release of the Final Report for the I-17 to Fain Road Connector Corridor Location Study which identifies preferred alternatives to eliminate the current 'at-grade' SR 89A/Robert Road signalized intersection. The Town encourages CYMPO to continue dialogue with ADOT for challenges of this current 'at-grade' intersection and continue efforts to eliminate this "bottleneck" in the fourteen-mile segment of SR 89A between SR 69 and SR 89 by recognizing the immediate need for construction of a 'grade separated' traffic interchange.

Sincerely,

Harvey Skoog, Mayor  
Town of Prescott Valley
