Prescott Valley, AZ 86314

Re: Flood Control District Drainage Project IGA

Dear Mayor Skoog,

The Flood Control District continues to work with the incorporated communities by sharing our tax revenue to help communities accomplish drainage improvement projects. We have recently made a change to our IGA program to better address community needs and longer project timelines. We are asking communities to provide project timelines, phasing and cost estimates prior to project funding. Board approved project specific IGAs will be written which will be good for the project duration with funding in future years subject to Board approval.

A new 2013/2014 IGA in the amount of \$585,000 was approved on July 15, 2013 by the District Board for your Tonopah Dr. Drainage Improvement Project. Attached are three originals for your review and signature. Please place acceptance of the IGA on your Council agenda and sign and return all three originals to the District. A fully executed original copy will be returned to you after it has been signed and recorded.

We look forward to working with the Town on this and future projects. Should you have any questions, please contact me.

Sincerely,

YAVAPAI COUNTY FLOOD CONTROL DISTRICT
