Re: Town of Prescott Valley Flood Control District Project Funding for Fiscal Year 2014/15

Dear Norm:

This letter is being written in response to your letter dated February 20th, 2014, which outlines the Town's Flood Control District funding request for the upcoming fiscal year. The Flood Control District has held its budget hearings for next fiscal year, and the District Board of Directors has been supportive of the requests for contribution funds to communities as outlined in the District's budget submittal. To summarize what is being proposed in the tentative budget that will be placed before the Board in early July 2014, the following projects are identified within the budget submittal as funding to the Town of Prescott Valley, totaling \$600,000 for FY 14/15:

Phase II Construction of Tonopah Stormwater Management Project -	\$300,000 funding
Agua Fria Outfall & Bank Protection Project, 100% Plans completion -	\$100,000 funding
<u>Viewpoint Connector Detailed Drainage Study -</u>	<u>\$200,000 funding</u>
TOTAL:	\$600,000

For projects that have an existing approved Intergovernmental Agreement (IGA), I will be identifying the amount of 2014/15 fiscal year funding and seeking Board of Directors approval in mid-July after the tentative County budget is approved in early July. For projects requiring a new IGA for a funding avenue to the Town, I will be drafting those IGA's within the next month, following existing IGA formats, and I anticipate seeking Board approval of these IGA's at the mid-July meeting as well.

If you have any questions about the above matters, please do not hesitate to call or email.

Sincerely,

YAVAPAI COUNTY FLOOD CONTROL DISTRICT
