RE: Lift Station meter installations for work provided by Earth Resources and integration by Rottweiler Controls: Professional Services Agreement with Ch2MHILL/OMI, Out of Scope Services Clause Section 9 of the Restated and Amended Agreement dated June 25, 2015

Dear Gary Young,

Prescott Valley is installing flow metering and monitoring devices at 4 (four) lift stations which include; Viewpoint, Quailwood, Basin E and Orchard Ranch. The metering devices will be connected to SCADA to provide remote measuring of flow characteristics to assist in future planning and development. Our goal is to utilize our Professional Services Agreement, more specifically; Section 9 of our Amended and Restated Agreement dated June 25, 2015.

Section 9 states: CH2MHILL/OMI shall perform other services that are Incidental to the Scope of Services, as directed by the Town. Such services will be invoiced to the Town at CH2M HILL OMI's Cost plus fifteen percent, (15%) or as otherwise mutually negotiated and agreed upon.

CH2MHILL/OMI's Scope: The Town of Prescott Valley is asking CH2M HILL/OMI to provide administrative support and perform project related billing services for this project and coordination of pump station availability for the contractors.

Price of Services: Lift Station installations by Earth Resources including tax: \$75,185.41 and meter installations/integration by Rottweiler Controls including tax: \$7,970.00, CH2MHILL/OMI Out of Scope Markup of (15%) for a total project cost of: \$95,628.72.

Payment Terms: Pursuant to Section 13 of our Professional Services Agreement dated June, 2015.

Operations Management International, Inc.

Town of Prescott Valley, Arizona
