Subject: Liquor License Extension of Premises

Dear Town Council,

We respectfully request your approval for an Extension of Premises. My husband and I own Prescott Golf & Country Club, and it's Series #6 liquor license. We previously carved out a #12 license from the middle of our #6, when we leased out the restaurant. This request is for a restaurant within the boundaries of the licensed golf course which was previously part of the series 6 licensed premises, then carved out for a series 12 restaurant tenant who left, and it is now being reincorporated into the series 6 premises. We will use the same successful precautions as before and currently in use.

Thank you for your consideration.

Jessica Hall
