PROBLEM IDENTIFICATION AND RESOLUTION:

Prescott Valley is located in Yavapai County, 85 miles north of Phoenix. It encompasses 37.7 square miles between the Mingus and Bradshaw Mountain ranges in the high-desert region of central Arizona. Prescott Valley is a growing community with a population of 38,962. The economy is comprised of industrial, manufacturing, retail and service businesses. Prescott Valley has become a hub in Yavapai County for education, entertainment, medical and retail services; and provides many employment opportunities.

Two major highways run through Prescott Valley. State Route 69 spans 11.2 miles and State Route 89A covers 9.6 miles. These thoroughfares are the main corridors connecting Prescott Valley, Prescott, Chino Valley, Dewey-Humboldt and other unincorporated areas of Yavapai County.

Since 2007, Prescott Valley has had an increase in commercial businesses along State Route 69 which include two large shopping areas with well known retailers. These centers have greatly increased the amount of traffic on this highway and have impacted the flow of traffic. This area has also had an increase of residential and commercial development; and the layout of the highway and intersecting roads have also changed. In addition to the highways, PVPD is responsible for patrolling 260+ miles of town roadway. This includes many access roads connecting State Route 69 to State Route 89A.

The high volume of traffic on our highways and roadways in addition to errant driving behaviors has continued to influence the number of accidents that occur in Prescott Valley. In 2008, the department responded to 628 total injury, non-injury and fatality accidents. In 2009, that number only decreased by 10 incidents. The majority of these accidents, in addition to all fatalities for the past three years, have occurred on our highways and main connector roads. **Speed** continues to be a large cause of most accidents. Although the department has experienced a 25% decrease in the number of traffic citations from 2008, the overall number of citations remains high with DUI arrests and traffic violations as the biggest contributing factors.

Each year, our agency continues to participate in the statewide highway safety campaign led by the Governor's Office of Highway Safety. Past grant funds have been utilized to enhance our efforts in highway safety, underage drinking prevention, DUI and select traffic enforcement, and public awareness and education.

The department has also used past funds from GOHS to support our "It's our town, please slow down" campaign which placed various signs around our community that remind people to obey posted speed limits. These signs are still located throughout our community and will remain for many years.

Other efforts to address traffic issues include the use of a speed trailer. The department has deployed this device for over a decade and it has proven to be an effective tool in our community to gain voluntary compliance of posted speed limits by drivers. The department frequently receives requests for placement of the trailer in various locations and neighborhoods where

speeding has become a problem; however, we are no longer able to respond to these requests because our 1996 model trailer is no longer functioning and is unable to be repaired.

The Traffic Unit will facilitate the use of the speed trailer by responding to citizen requests, in addition to identifying and scheduling use of the trailer in various problem areas around town. Locations will include areas with high accident rates and school safety zones. The Traffic Unit will maintain a log of the trailers' deployment and will review data obtained by the trailer. Volunteer staff will be utilized to transport the speed trailer to the various locations.

The requested mobile speed detection trailer will assist with public education and voluntary compliance with maximum speeds throughout all areas of Prescott Valley. This supports our goal of increased public awareness and the reduction of speed related accidents. The cost includes tax for one SMART 850+ radar speed trailer. This purchase will not require any shipping fees.

A. Pursuant to the requirements of the Federal-Aid Highway Act of 1968 (U.S.C. §103 et. seq.), AGENCY, as a condition to receiving approval of this Contract submitted under the Highway Safety Act of 1966, as amended, hereby gives its assurance that employment in connection with the subject Highway Safety Project will be provided without regard to race, color, creed, sex, or national origin, and that any contract it enters into with any private agency pursuant hereto will include provisions in compliance with this paragraph (XI).

As a condition of receiving approval of this Contract, AGENCY will be subject to and will comply with Title VI of the Civil Rights Act of 1964 and all applicable requirements of the Department of Commerce regulations as adopted by the USDOT, providing that no person in the United States shall on the ground of race, color, creed, sex, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under the subject Highway Safety Project.

- B. If AGENCY fails or refuses to comply with its undertaking as set forth in these provisions, STATE or the USDOT may take any or all of the following actions.
1. Cancel, terminate, or suspend, in whole or in part, the agreement, contract, or other arrangement with respect to which the failure or refusal occurred; and
 2. Refrain from extending any further Federal financial assistance to AGENCY under the Highway Safety Program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from AGENCY.

XIV. Minority Business Enterprises (MBE) Policy and Obligation

- A. Policy: It is the policy of the USDOT that minority business enterprises as defined in 49 CFR, Part 23, will have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this Contract. Consequently, the minority business enterprises requirements of 49 CFR, Part 23 apply to this Contract.
- B. Obligation: The recipient or its contractor agrees to ensure that minority business enterprises as defined in 49 CFR, Part 23 have the subcontracts financed in whole or in part with Federal funds provided under this Contract. Pursuant to ARS §35-214, all books, accounts, reports, files, and other records relating to this Contract will be subject at all reasonable times to inspection and audit by STATE for five (5) years after completion of this Contract. The records will be produced at the Governor's Office of Highway Safety.

XVII. Appropriation of Funds by U.S. Congress

It is agreed that in no event will this Contract be binding on any party hereto unless and until such time as funds are appropriated and authorized by the U.S. Congress and specifically allocated to the project submitted herein and then only for the fiscal year for which such allocation is made. In the event no funds are appropriated by the U.S. Congress or no funds are allocated for the project proposed herein for subsequent fiscal years, this Contract will be null and void, except as to that portion for which funds have then been appropriated or allocated to this project, and no right of action or damages will accrue to the benefit of the parties hereto as to that portion of the Contract or project that may so become null and void.

XVIII. Continuation of Highway Safety Program

It is the intention of AGENCY to continue the Highway Safety Program identified in this Contract once Federal funding is completed. This intended continuation will be based upon cost effectiveness and an evaluation by AGENCY of the program's impact on highway safety.

XIX. E-Verify

Both Parties acknowledge that immigration laws require them to register and participate with the E-Verify program (employment verification program administered by the United States Department of Homeland Security and the Social Security Administration or any successor program) as they both employ one or more

employees in this state. Both Parties warrant that they have registered with and participate with E-Verify. If either Party later determines that the other non-compliant Party has not complied with E-Verify, it will notify the non-compliant Party by certified mail of the determination and of the right to appeal the determination.

In the event STATE abandons the services or any part of the services as herein provided, STATE will notify AGENCY in writing and within twenty-four (24) hours after receiving such notice, AGENCY will discontinue advancing the work under this Contract and proceed to close said operations under the Contract.
- C. The appraisal value of work performed by AGENCY to the date of such termination or abandonment shall be made by STATE on a basis equitable to STATE and AGENCY and a final reimbursement made to AGENCY on the basis of costs incurred. Upon termination or abandonment, AGENCY will deliver to STATE all documents, completely or partially completed, together with all unused materials supplied by STATE.
- D. AGENCY may terminate or abandon this Contract upon thirty (30) days written notice to STATE, provided there is subsequent concurrence by STATE. Termination or abandonment by AGENCY will provide that costs can be incurred against the project up to and including sixty (60) days after notice is given to STATE.
- E. Any equipment or commodities which have been purchased as a part of this Contract and which have not been consumed or reached the end of its useful life will be returned to STATE upon its written request.

XXII. Cancellation Statute

All parties are hereby put on notice that this Contract is subject to cancellation pursuant to ARS §38-511, the provisions of which are stated below.
