

September 28, 2011

Ray Smith P.E., R.L.S.
Engineering Division Manager
Town of Prescott Valley
7501 E Civic Circle
Prescott Valley, AZ 86314

Subject: Recommendation of Apparent Lowest Responsible Bidder for;
Western Boulevard Stormwater Management Improvement Project Phase
2, CIP#E328.2

Dear Mr. Smith:

Lyon Engineering has had the opportunity to review all eight proposals for the Phase 2 Western Boulevard Stormwater Management Improvement Project. The bid opening occurred at the Civic Center as scheduled on 26 September 2011. An attached summary spreadsheet of all eight bids received by the Town is attached for your reference.

Earth Resources Corporation is the apparent low bidder for the Base Bid including Addition 'A'. Earth Resources appears to have an acceptable level of experience with this type of project. Earth Resources Corporation has completed the Fain Lake Excavation Project for the Town of Prescott Valley, Clark Street Water Main Improvements in Jerome and has received positive feedback from a quality control and construction schedule standpoint.

Therefore, Lyon Engineering recommends that the Town of Prescott Valley award the construction contract for the Western Boulevard Stormwater Management Improvement Project Phase 2, CIP#E328.2 to Earth Resources Corporation.

Sincerely,
Lyon Engineering

Scott A. Lyon, P.E., R.L.S.
Vice President
