What experience do you feel qualifies you for the position of Councilmember?

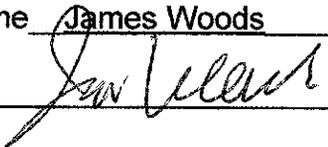

Just some of the experiences that I have gained over 20+ years of working in radio and being a public figure, involved in the community, is relating to the public in a positive manner. Being a champion of the community is important. Promoting and supporting the community that I love and work in are essential roles of what I do. Volunteerism is the best form, I have found, to accomplish this. Because of my years of service, to every community small and large, I feel that I am uniquely qualified to take on any task I am presented with as a Prescott Valley Council Member.

What personal qualities do you feel you possess that would assist you as a member of the Prescott Valley Town Council?

My current role as manager of a radio station has taught me problem solving skills and the importance of working with others, be it the sales team, the client or the listeners, to create a path in reaching goals and achieving successful outcomes. I possess a positive personality. I am supportive, open minded, and enjoy working with others to solve a common goal. I am a family man whose ultimate wish is to have a bright and prosperous future for my young children in a community that we choose to call home.
