Subject: Contractor review.

Kim,
I have reviewed Danson Construction's qualifications and find them to be excellent. I spoke with three references and they all spoke very highly regarding the company. The BBB has them rated as "A".
There are no complaints against them per the Arizona Registrar of Contractors. They will utilize the same superintendent that ran the Yavapai County projects. Yavapai County feels they are the best contractor out of the four they have dealt with in the last year. I received the subcontractor list form and they will be using some local companies which include Commercial Glass, Banker Insulation and Yavapai Mechanical.
I will bring you my documentation for the above this afternoon.
I recommend that the Town hires Danson to construct this project.

Doug
