SUMMARY/BACKGROUND: Each year, the Prescott Valley Police Department evaluates the condition of its Patrol fleet and determines the necessity for vehicles. Some years have focused on increasing the fleet size for a growing department and in other years the priority was replacing vehicles that weren't efficient to operate. The department also routinely redistributes vehicles within the department for other purposes to maximize their useful life.

In preparing for Fiscal Year 2012/13, it was established there were a number of aging vehicles no longer safe and effective for police operations. Council approved the department's proposed budget which included \$60,000.00 in capital expenses to replace two of these aging vehicles.

Per policy, the department is seeking council's approval to purchase two (2) new police-packaged Chevrolet Tahoes and lighting packages. The Tahoes will be purchased through the GSA Vehicle Purchase Program and the lighting packages will be purchased through the three-vendor quote process. These Tahoes will be utilized by the K9 Squad and will be equipped with mobile incident command management systems. These systems enhance our ability to respond to major incidents and expedite the establishment of on-site command.

The expense is supported through General Funds approved in the Police Department's Budget and supplemented with funds received through the Yavapai County Attorney's Anti-Racketeering RICO Fund and a Grant. The breakdown of expenses is as follows:
