

October 23, 2012

Ray Smith P.E., R.L.S.
Engineering Division Manager
Town of Prescott Valley
7501 E Civic Circle
Prescott Valley, AZ 86314

Subject: Recommendation of Apparent Lowest Responsible Bidder for;
Western Boulevard Stormwater Management Improvement Project
Phase 3, CIP#E328.3

Dear Mr. Smith:

Lyon Engineering has had the opportunity to review all eleven (11) proposals for the Phase 3 Western Boulevard Stormwater Management Improvement Project. The bid opening occurred at the Civic Center as scheduled on 22 October 2012. An attached summary spreadsheet of all eleven bids received by the Town is attached for your reference.

Earth Resources Corporation is the apparent low bidder for the Base Bid including Alternate 'A'. Earth Resources appears to have an acceptable level of experience with this type of project. Earth Resources Corporation has completed the Fain Lake Excavation Project for the Town of Prescott Valley, Clark Street Water Main Improvements in Jerome, and Western Boulevard Phase 2 for the Town of Prescott Valley, and has received positive feedback from a quality control and construction schedule standpoint.

Therefore, Lyon Engineering recommends that the Town of Prescott Valley award the construction contract for the Western Boulevard Stormwater Management Improvement Project Phase 3, CIP#E328.3 to Earth Resources Corporation.

Sincerely,
Lyon Engineering

Scott A. Lyon, P.E., R.L.S.
Vice President
